SIDE 2

OWNER	FOLLOWUP DATE	STATUS

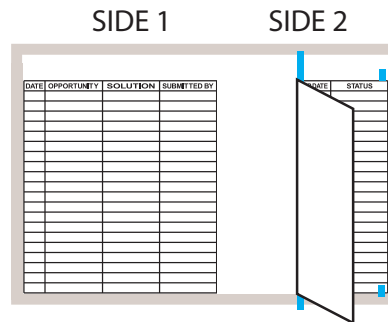

1.) Graphic for full 4'x6' display board will arrive in 2 pieces with squeegee supplied.

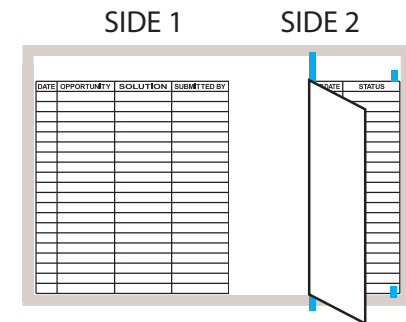

2.) Lay graphic panels on display and overlap vertical line to make one piece. Using light adhesive painters or masking tape, tape pieces together through middle. Align graphic panel to the bottom of the inset display board (to aluminum frame and level.) Tape graphic in place all four corners.

3.) Tape left and right panel through the middle of each side. Remove tape from left side of Side 1. Fold graphic back to taped middle, remove wax paper from graphic folding graphic with adhesive over taped line. Cut the wax paper with a pair of scissors (do not touch display face with scissors). With one person on each sided (top and bottom), hold left edge of vinyl off board surface and squeegee vinyl in place from right to left.

4.) Remove tape on left middle and tape through the middle. Fold back with left side of panel 2. **(DO NOT REMOVE WAX PAPER AT THIS TIME)** Squeegee down right side of Side 1.

5.) Remove the wax paper from the left side of Side 2 and apply as in Step 3. Remove tape on right side and the tape through the middle of Side 2 and Squeegee down right side.
